

FMHS Math Class Supply List

Items for students to have daily:

- 1.5" Binder w/ dividers
- Notebook paper (no spirals please)
- Graph paper (1/4 inch grid is preferred)
- Pencils
- Red pens for grading
- Highlighter
- 6 inch ruler
- Scientific Calculator or Graphing Calculator (See information below)
- Geometry students also need a protractor and compass

Items to be turned into your Math teacher:

- Each student should bring a 4- pack of AAA batteries to power our graphing calculators (must be in original package)
- Boys bring a 4-pack of dry erase markers
- Girls bring a box of Kleenex and 12 pencils

(Please note that additional supplies may be required by your student's individual teacher.)

Calculator Recommendations:

All FMHS math teachers have class sets of TI graphing calculators. These calculators are for classroom use only and cannot be taken home. The purchase of a graphing calculator for home use is encouraged, but not mandatory. *Students may be required to use classroom calculators for tests, even if they have their own.*

If you do decide to purchase your student a graphing calculator, we would strongly recommend one of the following models:

- TI-84 series Graphing Calculator
- TI-Nspire Graphing Calculator w/ TI-84 faceplate - *Do not purchase the CAS version*

If you purchase a TI calculator, please send your child's math teacher the bar code from your packaging. We can redeem these for TI technology products for our classrooms. Thanks!
